PROFILE

Prizren, Kosovo | 18 years old

I am a highly motivated and passionate individual with a strong interest in computer science and programming. Currently graduating from school, I have complemented my education with several courses in the field, further developing my technical skills. Eager to apply my knowledge in real-world projects, I am committed to continuous learning and growth within the tech industry.

EXPERTISE

- HTML/CSS/JS
- jQuery/Bootstrap/ReactNative
- PHP/Laravel
- MySQL
- Wix/WordPress

EDUCATION

University of Prizren / Bachelor 2024-...

- A first-year student at Ukshin Hoti University with great ambitions to achieve success during my studies and to become a valuable, honest, and highly responsible professional in society, also at the work.

Digital School Prizren- Full-Stack Developer

- I am certified by Shkolla Digjitale Prizren as a Junior Programmer (which is valid for 12 credits from KKK), Front-End Developer, Back-End Developer, and for Laravel Certification and React Native. To view the certificates, please visit my portfolio on the website.

High-School Gymnasium "Remzi Ademaj" | 2021-2024

- During my education, I successfully completed 3 years at Remzi Ademaj High School, graduating from this secondary school under the Ministry of Education.

SKILLS

- I have good and soft communication skills and in teamwork, which is a great priority in my personality. I enjoy genuine and respectful communication with others, and I am also patient when working in a team, respecting the opinions and actions of others. "I am a good problem solver, skilled in identifying and resolving technical issues, whether in Windows or in programming."

ACTIVITY/TRAINING

- I was trained at ITP - Prizren in Microsoft Azure, Cloud, and Linux for a continuous period of 6 months during the year 2023-2024.

ABOUT ME

- I am an ambitious and driven individual with a strong passion for technology and continuous learning. Throughout my life, I've balanced academic achievements with my personal interests, especially in computer science and IT. I enjoy exploring new technologies and problem-solving. My dedication to advancing my skills has led me to pursue various physical courses, allowing me to continually improve and bring innovative solutions to my work. I am confident in my ability to adapt and grow in dynamic environments, and I am always eager to take on new challenges.
